

# **NAMAI SA GIRLS TECHNICAL SCHOOL**

**P/A BEMBEKE**

**DEDZA**

**MALAWI**

**WAP +265999335698/+265991033258**

**MIM FOUNDATION**

We are a village based youth organization in Bembeke, Our main objective is promoting the youth especially girls we have conducted a research on why is our area( Bembeke) is having a lot of girls getting themselves into early marriages and pregnancy, drug and substance abuse, sexually transmitted diseases just to mention a few. As a group we thought of how we can engage the youth especially girls to keep them away from these harmful practices by teaching them various skills so that they spend most of their time in doing the proposed activities, we also noted that girls do not fully participate in technical activities such as electronics, mechanics, carpentry and welding just to mention a few. Our organization is looking for assistance in order to carry out the intended goal of imparting various skills to these girls so that they can be self dependant. We have volunteers with various talents who have offered themselves to teach once we get started. Our place is situated at Kapenuka Village just after Bembeke CDSS.

## **WHAT ARE WE HAVING AT HAND AS A GROUP**

We have land with one house with some rooms that can be turned into small classrooms and one big room which can be used as work shop for mechanical activities.

## **WHAT ARE WE LOOKING FOR**

1. `Financial support for the rehabilitation of the house.
2. Tools for the work shop e.g spanners, hummers, screw drivers, welding machine and grinder, electric soldering guns and many more
3. Electricity/Gen-set if possible to enable us operate some electric tools
4. 4 desktop computers or laptops for computer lessons

## **HOW IS THE TECHNICAL SCHOOL GOING BE SUSTAINED**

1. Community members will be asked to pay a little amount of money Yearly to help in the running of this facility.

2. The technical workshop will be offering open services such as repairing of motorbikes, radios, cars and many more so money from the work shop will be used to pay salaries of teachers and other needs.
3. We will be selling workshop products like door flames and window flames then use the money to run the school
4. We intend to be buying non-running motorbikes and sell them after repairing then use the money to pay for various expenses at the school.
